ABOUT THE PROJECT

The Florida Department of Transportation's contractor is creating additional left turn lanes to enter northbound and southbound I-275 at the 22nd Avenue North interchange. All work at the interchange will be along 22nd Avenue, as well as on the entrance ramps onto I-275.

The completed project will result in two through-lanes in each direction of 22nd Avenue and additional left turn lanes (totaling two in each direction, east & west) for the entrance ramps to I-275.

TRAFFIC FLOW

The construction phasing is designed so that all existing lanes of traffic will be open on I-275 & 22nd Avenue during peak traffic hours and major special events.

NIGHT WORK

In order to maintain the construction schedule and to minimize the impact to the traveling public, lane closures are planned for nighttime hours as needed.

LANE CLOSURE HOURS

* 11:00 p.m. to 6:30 a.m.

LANE CLOSURE INFORMATION

Details about lane closures are posted on www.myTBI.com as they are scheduled.
